

ECLYPSE Connected Thermostat

An intelligent thermostat that delivers a best-in-class user experience for your building portfolio

Bring life to your new or existing commercial office, educational facility or hospitality building

- **Commercial Office.** A Wi-Fi communicating rooftop and zone control solution with retrofit buildings in mind, requiring no new wires or gateways, helping to reduce installation costs while upgrading it with a modern user interface
- **Education.** An IP-based, networked solution with *Bluetooth*® connectivity allowing teachers to use the *my PERSONIFY* mobile app for added control over their teaching environment
- **Hospitality.** An IP-based fan coil and packaged terminal unit control solution with integrated REST APIs and *my PERSONIFY* mobile app delivering an enhanced, in-room guest experience
- A contemporary design and interface that can help bring an existing building to life
- A versatile range of models available for a variety of applications in commercial office, hospitality, and educational facilities
- Leverage EC-gfxProgram to customize control sequences for your specific application
- Develop unique solutions that leverage the built-in RESTful API such as a personalized mobile application or IoT system integration

An interface designed with the user in mind

The ECLYPSE Connected Thermostat has been designed for ease of use, providing flexibility and functionality in its user interface that modernizes your building portfolio.
