

CUSTOM PERFORMANCE WITHOUT THE CUSTOM PRICE.

- Pre-engineered modular units
- Configured to meet your requirements
- No high costs or long lead times like custom AHUs

INTRODUCING THE NEW MARLOAIR™ AHU!

With the MarloAIR™ AHU, you no longer have to choose between high-priced custom AHUs with long lead times and off-the-shelf units with limited features. Now you can get the best of both: a pre-engineered unit that reduces cost and delivery time, along with a variety of modules that can be configured for your specific application, from 8,000 to 56,000 CFM. The new MarloAIR gives you...

- Modular design for easy transport and fast assembly.
- Superior wall system featuring 2" foamed panels, integral thermal breaks and full-perimeter, double-sealed gaskets.
- Energy efficient features including an airtight (SMACNA Leak Class 9) fully insulated wall and floor panel system, double-walled and gasketed access doors, and direct-drive, energy efficient fan/motor assemblies.
- Best-in-class, 3-year warranty.
