Allure UNITOUCH

Occupant focused interface with touchscreen, sensors, and mobile app support

Intuitive interface for a modernized occupant experience

- Elegant and compact design, provides a modern appearance when installed in any environment

- Mobile app compatibility: comfort settings can be controlled from anywhere in your office, hotel room, etc. using the *my PERSONIFY* mobile app

- Supports *Bluetooth*® low energy technology for easy system connection and secure authentication

- Unique user experience and an intuitive control scheme for control of temperature, fan speed, lighting, and sunblinds, from a single device

- Distinctive solution that offers advanced technologies within a single product: Bluetooth low energy, glass front panel, capacitive touchscreen, LCD color display, sensors, etc.

- Multi-sensing capabilities (temperature, humidity, and CO_2) using one wire and one connection

- Home and menu images can be customized to display, for example, the installer's logo or end-client's logo

- Quick and easy installation: both power and communication pass through a single Cat 5e cable for reduced installation costs. Two RJ-45 ports facilitate the daisy-chain connections to room devices

- Configurable using EC-*gfx*Program to customize the user interface: applications (temperature, lighting, etc.), images, languages, and more

- Allure UNITOUCH is compatible with the Smart Room Control solution
