

UNIWAVE Series

Future-ready wireless control for modern spaces

Wall-mounted interface and remote control with a contemporary design

- Building owners will have access to a future-ready product that incorporates modern technology that can handle the ongoing evolution of the space
- Retrofit and repartitioning projects will benefit greatly from the wireless flexibility that UNIWAVE provides
- The wall mounted Allure UNIWAVE gives technicians the benefits of easy installation on any surface (glass, concrete or brick) and sensing capabilities (temperature and humidity)
- Office/Education: Empower employees to set the best ambiance from their desk for maximized efficiency with the Remote UNIWAVE
- Healthcare/Hospitality: Increase patient/guest satisfaction by allowing them to have a full control from their bed
- Occupants have complete control of all comfort parameters (temperature, lighting, sunblinds, fan speed) from a single interface
- Users will benefit from a customized interface based on the exact configuration of the room
- Activate predefined scenarios (projection mode, tunable white...) in only a few clicks
- Architects will appreciate its contemporary design and the possibility of choosing the color (black or white)

Allure UNIWAVE

Remote UNIWAVE

UNIWAVE Series: Part of the ECLYPSE Sky Ecosystem

Bluetooth® low energy technology allows bi-directional communication between UNIWAVE products and the EC-Multi-Sensor-BLE. These solutions are compatible with the ECLYPSE Smart Room Control solution.

Model Selection

- Examples: Allure UNIWAVE-*W-H*
Remote UNIWAVE-*B*
Wall holder UNIWAVE-*B*

Model	Description
Allure UNIWAVE	- B : Wireless wall interface with room temperature sensor (black) - W : Wireless wall interface with room temperature sensor (white) - B-H : Wireless wall interface with room temperature and humidity sensors (black) - W-H : Wireless wall interface with room temperature and humidity sensors (white)
Remote UNIWAVE	- B : Remote control (black) - W : Remote control (white)
Wall holder UNIWAVE	- B : Wall mount accessory for Remote UNIWAVE-B (black) - W : Wall mount accessory for Remote UNIWAVE-W (white)

Accessories

EC-Multi-Sensor-BLE	Compact multi-sensor with Bluetooth low energy connectivity
